Funeral Directors Ltd

ORDER OF SERVICE COLLECTION

Order of Service

An Order of Service provides a schedule of the funeral service as well as being a special keepsake for all your family and friends.

A bespoke order of service is also ideal for sending to those who unfortunately may not be able to attend the funeral service. It is always a good idea to order a few more than you need on the day for just this reason.

Should you wish to have an Order of Service produced, we can help you to create something that truly reflects your loved one's life.

Your Order of Service can be completely personalised to include anything you would like, whether it be a reading, a photo, a poem or something your loved one would have liked to be remembered for.

After choosing a design you like; a personalised content of hymns, readings, dedications or photographs will then be added. All designs are available with or without a photo.

If there is a particular design you would like which isn't in our brochure, please let us know. This might be a loved one's favourite flower, hobby or place for example.

Each A5 booklet is beautifully printed with a 4-page 350gsm silk board cover and, where required, 160gsm inner leaves. It will be a treasured reminder for many years to come.

Please refer to the separate list for our pricing options.

All design templates use images of models and have fictitious names and dates.
